02/11/2021	Operations	Noise Monitor System Upgrade			
Action That the Chief Executive Officer or designee be authorized to increase and extend Contract No. 7006865, for Noise Monitor System Upgrade, with Casper Airport Solutions Inc., of Berwyn, Pennsylvania, in an amount not to exceed \$150,000.00, for a revised Contract amount of \$1,243,761.00.					
Description <ul style="list-style-type: none">• Increase and extend the Contract for Noise Monitor System Upgrade in support of the Airport's Environmental Affairs Department. Justification <ul style="list-style-type: none">• The Contract increase will provide additional funds for project management hours and reimbursable expenses to complete the noise monitor upgrade and meet compliance obligations.• The Contract was established as cooperative purchasing using an Interlocal Agreement with the City of Dallas. Due to Airport requirements to carry out processes which were not required by the City of Dallas, including engineering and electrical drawings, construction permitting, code requirements, inspections and airspace studies for each site, additional funds are needed for project management and reimbursable expenses.• Due to travel restrictions resulting from the COVID-19 pandemic, staff had to modify its project approach relying on remote communication with the company's US-based subconsultant onsite, resulting in a lengthier project management process.					
D/S/M/WBE Information <ul style="list-style-type: none">• The annual goal for the M/WBE Program is 31%.• N/A - Not subject to a goal per the Board's historical SBE Policy due to the nature of the procurement. (Interlocal Agreement).					
Schedule/Term <ul style="list-style-type: none">• Current Contract completion date: July 15, 2021• Revised Contract completion date: January 15, 2022

Robert Horton 3-5563 Helen Chaney 3-2523		DFW Capital Acct	26786-01		\$150,000.00

Justification Continued

- Due to other COVID-related actions, i.e. DFW's decision to accelerate its Runway 18R/36L project and FAA's decision to consolidate operations to the East Tower of the Airport, there was a need to capture noise data related to the changes, which required the retrofit of some existing non-functional sites in order to meet the Airport's federal noise compliance. This unanticipated project task resulted in the need for additional project management hours.
- For the 35 Noise Monitor Terminal (NMT) locations listed in the Contract, it was initially anticipated that the majority of the sites would involve reuse of the mast/foundation. However, due to integrity issues discovered at NMT locations, it was deemed prudent to construct 35 new sites rather than risk structural issues and additional costs related to rebuilding sites at a later date.
- This increase includes a contingency of \$51,250.00 to account for unforeseen requirements of the nine surrounding cities where the remaining noise monitors will be constructed.

Additional Information

- On October 3, 2019, by Resolution No. 2019-10-223, the Board awarded Contract No. 7006865, for Noise Monitor System Upgrade, with Casper Airport Solutions Inc., of Berwyn, Pennsylvania, through the City of Dallas Interlocal Agreement, which was approved by Board Resolution No. 1995-06-178, dated June 1, 1995.
- The additional services of the Contract are exempt from public bidding, and accordance with local Government Code 252.022, as they are available from only one source.
- Section 791.011 of the Texas Government Code authorizes local government entities to Contract or Agree with another local government to perform governmental functions and services.

02/11/2021	Operations	Grand Hyatt Roof and Panel Replacement			
Action That the Chief Executive Officer or designee be authorized to increase the owner allowance for Contract No. 9500670, for Grand Hyatt Roof and Panel Replacement, with HCBeck, Ltd. dba The Beck Group, of Dallas, Texas, in an amount not to exceed \$900,000.00, for a revised Contract amount of \$12,273,569.00.					
Description <ul style="list-style-type: none">• Increase the Contract owner allowance for the Grand Hyatt Roof and Panel Replacement in support of the Airport.					
Justification <ul style="list-style-type: none">• As a result of several unforeseen site conditions requiring Contract changes, the Contract owner allowance has been depleted.• Exterior metal panels were thought to be attached to exterior framing based on as-built documentation and confirmed by field examination. However, the metal panels on the west facade were found to be integrated into the curtain wall and glass system and will require additional structural attachment with a higher level of construction difficulty, along with resequencing of the construction.• Insurance proceeds in the amount of approximately \$600,000 will be received for this additional work.• Increasing the owner allowance will allow the project and contracts staff to quickly manage potential project issues that trigger Contract change orders minimizing the schedule impact for the remaining duration of the construction.

Justification

- These Contracts will provide construction quality assurance inspection services on an indefinite delivery basis.
- The indefinite delivery approach allows the Airport to rapidly respond to project and program needs as the volume of work dictates.
- Services will be authorized and funded on an as-needed basis by the issuance of individual delivery orders.
- These Contracts will replace the construction quality assurance services currently being provided under two existing project management and construction management Contracts.

Additional Information

- Eighteen Statement of Qualifications, including 12 from M/WBE firms, were received on or before the due date of September 24, 2020, and are shown on the attachment.
- The SOQ submitted by Bluefin, LLC, Coppell, Texas, was determined to be non-responsive as the submission did not meet the requirements outlined in the Airport's solicitation.

02/11/2021	Finance/Audit	Reimbursement Agreement with American Airlines - Indoor Air Quality HVAC Ultraviolet Light (UV-C) Technology Installation in Terminal C		
Action That the Chief Executive Officer or designee be authorized to execute a Reimbursement Agreement with American Airlines, Inc. (AA) to install indoor air quality heating ventilation and air conditioning (HVAC) ultraviolet light technology (UV-C) in Terminal C in an amount not to exceed \$505,712.52.				
Description <ul style="list-style-type: none">• The Board will reimburse AA, in an amount not to exceed \$505,712.52, for the design and construction of the installation of UV-C technology to the HVAC systems of Terminal C.• The project wil enhance air quality in support of the Airport's response to the COVID-19 pandemic.				
Justification <ul style="list-style-type: none">• Installation of UV-C technology was previously approved by the Board for Terminals A, B, D, E under a separate contract managed by DFW.• Because of the age of the HVAC systems in Terminal C and AA's intimate knowledge of the systems due to their operation and maintenance of the terminal, DFW prefers that AA manages the Terminal C portion of UV lighting program.• The Terminal C component of the lighting upgrade program will be managed by American on a parallel path with the other terminals.• The use of UV-C light technology, combined with other health and safety measures such as social distancing, use of face coverings, and janitorial sanitization practices, will significantly reduce viral exposure risk to guests and employees in Airport facilities.• AA will exceed the 31% diversity goal for this project.				
D/S/M/WBE Information <ul style="list-style-type: none">• American Airlines has awarded the contract to Texas Air Systems.• Texas Air Systems has committed to achieving 31.12% participation utilizing DFW Electric Group, LLC (WF-C: 24.82%), RM Chin & Associates, Inc. (PF-C: 3.33%) and DCG Environmental, LLC (WF-C: 2.97%).
