---

**BACKGROUND:**

- This 19th Street Cargo Redevelopment contract included the demolition of an existing structure at 19th Street and West Airfield Drive, and the design and construction of two new warehouse buildings, aircraft taxiway and hardstand, and associated infrastructure.
- During design development, the potential future tenants identified additional site and facility requirements that were well beyond what was originally estimated when the project budget was developed and the contract amount agreed to. Unforeseen site conditions were also encountered that were more than originally anticipated.
- It was determined that the best course of action is to terminate the contract and allow Airport staff the opportunity to reevaluate the overall project.
- As part of the termination agreement, the contractor will finish the remaining demolition work and provide the Airport with the design documents which could potentially be used in the future.

**Subject:** International Parkway Bridges & High Mast Lighting Poles Replacement Phase 2 Projects

**Department:** Design, Code and Construction

**Amount:** \$22,557,734

**Revised Amount:** \$248,720,168.97

---

**BE IT RESOLVED BY THE DALLAS FORT WORTH INTERNATIONAL AIRPORT BOARD**

Approve to increase contract no. 9500806 (PA1098), for International Parkway Bridges & High Mast Lighting Poles Replacement Phase 2 Projects with Archer Western Construction, LLC of Irving, Texas, in an amount not to exceed \$22,557,734, for a revised not to exceed contract amount of \$248,720,168.97, the current contract completion date of January 12, 2027, is not affected by this action; and that the Chief Executive Officer or designee is authorized to execute said contract.

---

**BACKGROUND:**

- The flyover bridges used to access Terminals A, B, and C from International Parkway are reaching the end of their service life. This design and construction contract will remove these left-hand exit bridges and replace with right-hand exit bridges utilizing more modern roadway design standards.
- Recent assessments of existing bridge abutments and retaining walls, which were planned to remain in place, revealed the remaining service life is less than originally anticipated. Reconstructing this infrastructure in the future would result in additional disruption to our passengers in accessing the Terminals. It was determined that the prudent approach is to complete this work at the same time as the right hand exits are being constructed, eliminating the need for future disruption.
- This action adds reconstruction of existing bridge abutments and retaining walls to this contract.

**D/S/M/WBE INFORMATION:**

- The annual goal for the M/WBE Program is 31%.
- In accordance with the Board's M/WBE Program, the M/WBE goal for this contract is 22% for Design and 30% for Construction.

**Subject:** American Airlines Reimbursement Agreement for the Construction Support Services for the Terminal C Phase 1 Fit Out and A and C Piers Ramp Level Space

**Department:** Aviation Real Estate

**Amount:** \$5,867,150.26

**Revised Amount:** \$0.00

---

**BE IT RESOLVED BY THE DALLAS FORT WORTH INTERNATIONAL AIRPORT BOARD**

Approve to authorize and execute a reimbursement agreement with American Airlines for Construction Support Services for the Terminal C Phase 1 Fit Out and A and C Ramp Level Space as part of the CTA Redevelopment Program in an amount not to exceed \$5,867,150.26.

---

**BACKGROUND:**

- This agreement will allow American and its agent to provide Architectural management support for the Construction Services on the Terminal C Phase 1 Fit Out and the Ramp Level of the A and C Piers as part of the CTA Redevelopment Program.
- The CTA project has multiple components, and some will be managed by DFW and some by AA.
- DFW and AA agree that sharing the management of the work will allow for the fastest delivery of the new gates, which are critical for the AA operation.
- Terminal C is well beyond its useful life, and DFW and the airline acknowledge the need for significant improvements and have moved ahead with the CTA Redevelopment Program.
- Terminal C was the only legacy terminal not renovated in the last ten years, and based on a condition assessment, it has far exceeded its useful life and must be fully renovated to avoid operational disruption.
- This project will require close coordination with affected stakeholders to minimize conflicts and improve project delivery, which AA can more efficiently plan and implement.

**D/S/M/WBE INFORMATION:**

- American Airlines has set a 31% M/WBE goal on reimbursable agreement projects.
- American Airlines has awarded this contract to Corgan Associates, Inc.
- Corgan Associates, Inc. has committed to achieving 34% M/WBE participation; see attached list of subcontractors.
- The 34% M/WBE committed participation excludes \$628,623 in Owner's (American Airlines) contingency. Any M/WBE participation achieved on the contingency amount will be credited toward the M/WBE commitment.
